Sports Pay

Schedules & Installments

SportsPay's Payment Schedules allow registration platforms to offer **flexible installment** plans to their users, ensuring seamless payment collection while reducing administrative overhead. The system supports **automated processing, secure card storage, real-time tracking**, and full API integration.

Key Features

AUTOMATED INSTALLMENT PAYMENTS
Schedule and collect payments automatically based on predefined due dates.

SECURE PAYMENT PROCESSING
Card details are stored using **Direct Payment (Embedded Tokenization)** or **Redirect Payment** methods.

FULL API INTEGRATION
Platforms can embed and customize the payment schedule flow seamlessly.

REAL-TIME MONITORING
Track payments, modify schedules, and receive status updates via API callbacks.

USER-FRIENDLY MANAGEMENT
Admins can **pause, modify, or cancel** scheduled payments when necessary.

PAYMENT SCHEDULES & INSTALLMENTS

Sports **Pay**

Technical Implementation

1. CREATING A PAYMENT SCHEDULE

- Registration platform submits a **Create Schedule API request** with:
  - Installment details (amount, due dates)
  - Customer information
  - Payment method (tokenized card or redirected entry)
- A **unique Schedule ID** is generated and stored.

2. ATTACHING A PAYMENT METHOD

- Payment cards can be securely linked via:
  - **Direct Payment API (Embedded Tokenization):** Card data is tokenized at checkout.
  - **Redirect Payment API:** Customers enter card details on a hosted payment page.

3. AUTOMATED PAYMENT PROCESSING

- Payments are **automatically processed** on scheduled dates.
- The system verifies available funds and initiates transactions.
- Merchants and platforms receive **API callback notifications** for each payment attempt.

4. MANAGING PAYMENT SCHEDULES

- Modify existing schedules via API:
  - Adjust due dates or amounts
  - Suspend or cancel a schedule
  - Retrieve real-time status updates

Integration & API Endpoints

CREATE SCHEDULE
Define a new payment schedule.

ATTACH CARD TO SCHEDULE
Define a new payment schedule.

MODIFY SCHEDULE
Update schedule details or payment amounts.

PROCESS PAYMENT
Trigger an immediate payment from a schedule.

SUSPEND/CANCEL SCHEDULE
Stop future payments.

RETRIEVE SCHEDULE STATUS
Get a real-time view of scheduled transactions.
